Traditional 2500

deceuninck

Saving energy, money and the environment

With energy prices soaring, you need a window and door system that insulates your home, helping to reduce fuel bills and cut carbon emissions.

Most people are familiar with the rainbow 'energy label' on white goods such as fridges and washing machines, with A and A+ ratings the most energy efficient. These also apply to windows and doors.

According to The Energy Saving Trust*, replacing all single glazed windows in a typical semi-detached house with A-rated double glazing could save you up to £120 a year on fuel bills.

To calculate how much you could save use the online energy calculator at www.deceuninck.co.uk

Our **Traditional 2500** double glazed windows achieve an A+ energy rating, providing superb thermal insulation. We also offer **triple glazed windows** for the best in energy efficiency and comfort in the home.

Keeping unwelcome visitors out

Making sure your windows and doors are secure can be a major deterrent to opportunistic thieves and burglars.

There are various glass and hardware options you can choose to make your home as safe as possible, but security starts with the window or door profile. All Deceuninck windows and doors are manufactured to **Secured by Design** standards, helping protect your property for complete peace of mind.

Traditional 2500 - smooth, stylish simplicity

Our **Traditional 2500** window and door range is a firm favourite with our customers. Smooth and stylish, they are proven to stand the test of time.

This range is available in White and nine 'wood like' finishes as standard, including White woodgrain, Cream, Rosewood and Golden Oak.

Our suite of windows and doors come with a wide choice of complementary hardware to complete the look.

We take our inspiration from the buildings and environment around us. So our designs are flexible, versatile and created to suit contemporary homes and period properties alike.

Good window design extends to the symmetry of window sightlines. Equal sightlines add balance and harmony, giving a cleaner view from the outside in, and from the inside looking out. It means our windows look less cluttered and more symmetrical.

All our products undergo rigorous tests to ensure they are of the highest quality, durability and reliability. So your windows and doors will stay beautiful for longer, with very little maintenance. They are also all recyclable.

Obscure finishes

A wide range of glass effects are available so you can more closely match the pattern you prefer.

All glass options are available toughened or laminated for safety and security.

Leaded and Georgian

The design of your windows and doors have a big impact on the overall appearance of your home. Whatever the age of your property the original windows and doors were designed to harmonise with it. So it's important to consider what will look right for the building when you replace them. The right design and look can preserve or enhance the value of your home.

Were the original windows leaded perhaps, or did they have Georgian bars?

Square leaded
